| <b>Short Description</b> | Cat5e UTP Crossover, Red, 5Mtr                                                                                                                                                                                                                                                                                                                                                              |
| <b>Full Description</b>  | <p>Category 5e cable is a twisted pair high signal integrity cable type often referred to as Cat5e. Most cables are unshielded, relying on the twisted pair design for noise rejection, some are shielded. Often used in computer networks such as Ethernet.</p> <p>Crossover cables are designed for connecting two computers together without a switch (or linking switches together)</p> |
